Journey to the Heart and Page Springs Institute come together to present a unique opportunity for healing and education

Mandaza makes his fifth visit to the US and Canada during this time of great global unrest. A time when the medicine of peacemaking is essential and necessary.

"Now, not later.' is what Spirit said. I tried to escape, but I couldn't and was taken deeper and deeper into the circle of Spirit's presence until I had only one response: 'Here I am.' One response and one responsibility---to heal".

Mandaza Kandemwa

As a Nganga, Bantu traditional healer, from the Shona and Ndebele traditions, Mandaza brings ancient wisdom from the African healing practices and peacemaking teachings of Zimbabwe.
